Business Operations | Process Automation | AI Workflows | Project Management

New Jersey (Eastern Time) | 551.312.3207 | madison.rochovansky@gmail.com | linkedin.com/in/maddie-rochovansky

PROFESSIONAL SUMMARY

Operations professional with four years in finance, IT, and client operations, mostly building the systems teams work from. Automates the manual work, puts AI where it actually helps, and documents it so it keeps running. Fully remote, works async.

PROFESSIONAL EXPERIENCE

Operations Associate

Apr 2026 – Present

DocWealth

Fully Remote

- Keep daily operations running for a remote startup, from client onboarding to billing to offboarding
- Built and maintain most of the company's automations and data checks, fix what breaks, and keep them SOC 2 compliant
- Brought Claude into daily operations, with custom skills and automations that sort client messages and diagnose errors
- Led a new client inbox rollout so every message gets an owner and a due date, and outsourced business formation filings
- Reconcile billing monthly and track down unpaid accounts, duplicate charges, and services nobody billed for
- Run the daily ops meeting and keep teams on the new systems instead of the old workarounds
- Wrote 20+ SOPs, trained the team on them, and supervised an operations intern

Accounts Payable and IT Administrative Assistant

Oct 2024 – Apr 2026

Mitsubishi International Food Ingredients

Hackensack, NJ (Hybrid)

- Processed 600+ vendor transactions a month across multiple offices, with no late payments
- Automated invoice batches, taking each run from 45 minutes to 5 and freeing up 10+ hours a week
- Set up a check that catches bad entries before they reach SAP, so posting corrections dropped by 40+ a month
- Handled IT alongside AP, from new hire setup and access to devices, and raised asset record accuracy from 85% to 98%
- Took large company projects from start to finish and kept everyone in the loop until they were actually done
- Managed vendor contracts and renewals, and found \$6,000+ a year in savings in one audit
- Created the CFO's monthly cost allocation report and a staffing model leadership used for headcount planning
- Built Claude skills for SAP invoice batches, SOP drafting, and reconciliations, and mapped processes for new hires

Accounts Payable Coordinator

Feb 2023 – Oct 2024

SCC Soft Computer

Clearwater, FL (Hybrid)

- Processed 300+ invoices and expense reports a month and never missed a payment date
- Ran vendor payments and reconciliations and helped close the books each month
- Kept vendor accounts in order, from onboarding and payment terms to disputes and audits
- Redesigned expense approvals so reports cleared 30% faster with fewer routing errors

Accounts Receivable Coordinator

Jun 2022 – Feb 2023

- Managed billing and payment posting for 500+ customer accounts at 99%+ accuracy
- Used SQL and contract terms to sort out billing discrepancies, and worked collections with the sales team
- Promoted to Accounts Payable Coordinator within 8 months
